# A summer on the mountain pasture

- If Heidi and her goat Peter were looking for a new place to stay, they would definitely end up

OUR PRINCIPLE.

We at the KRAFTalm like to enjoy ourselves. That's why you'll only find dishes on our menu that make our stomachs growl. Freshly cooked with the best ingredients, of course. Constantly changing and growing, depending on what's on offer and the season. But always prepared with love and served with warmth.

We have been living and working here since 1909. Everyone is welcome here from the bottom of our hearts. No matter where they come from & what title they have or don't have.

Because firstly, there's no sin on the Alm.

And secondly, it's people who count here.

So nice to have you with us,  
we are very happy! =)

### Our own springs.

Fresh spring water straight from the mountain.  
Water is our most valuable commodity, also at the KRAFTalm.  
Our location means that we are not connected to the municipal water supply. So we are self-sufficient with our own water sources.  
Strict quarterly controls and the care of our dad ensure excellent spring water quality directly from the Kleine Salve. The best water enjoyment on the mountain.
